

REVIEW
for the educational and professional program
«Finance, Banking and Insurance» of the first (bachelor's) level
of higher education in the specialty 072 «Finance, Banking and Insurance»
of Bila Tserkva National Agrarian University

The Department of Finance, Banking and Insurance of Bila Tserkva National Agrarian University presented the educational and professional program (EPP) «Finance, Banking and Insurance» for the first (bachelor's) level of knowledge 07 «Management and Administration», aimed at training professionals capable of developing to connect complex specialized tasks and applied problems, which are characterized by complexity and a certain uncertainty of conditions in professional activity, in the field of finance, banking and insurance.

The relevance of EPP «Finance, Banking and Insurance» is beyond doubt, as the financial system of Ukraine is constantly in need of highly qualified professionals who are fluent in the fluctuations of the external and internal environment; are able to adapt and react quickly to changes; make informed, effective decisions on reforming the tax system, financial sector, banking and insurance markets, etc.

Based on the content of the curriculum EPP «Finance, Banking and Insurance», it can be noted that students receive a thorough theoretical knowledge of basic educational components and competencies that allow future professionals to master the basic techniques and methods of financial management of the real economy and financial market, local governments; management of insurance funds; know the tax system; to assess the value of property and business; diagnose the financial condition of enterprises and carry out crisis management. However, in our opinion, we recommend to strengthen the study of a foreign language within the framework of the reviewed EPP.

Thus, we believe that the educational and professional program «Finance, Banking and Insurance» for bachelors at Bila Tserkva National Agrarian

University has the necessary structural and substantive components, reflects the current requirements for applicants for the specialty 072 «Finance, Banking and Insurance» in the field of knowledge 07 «Management and administration» can be recommended for practical use and implemented in the educational process.
